Financial Performance Analytics Dashboard

Key Insights & Recommendations | FY2024 | Non-Financial

Created by Syed Ubedullah Basha | Data Analyst

Big picture: Indian listed companies are profitable but top-heavy. 259 large caps earn 87% of profit, while financial risk sits mostly in micro caps.

Overview

87%

of net profit comes from 259 large caps

- 3,887 companies earned ₹9.87 L Cr net profit on ₹128.13 L Cr sales (7.7% margin)
- The top 10 companies alone earn 39.5% of profit
- 816 companies (21%) are loss-making; micro caps net out at a loss
- Refineries leads: ₹27.2 L Cr sales, ₹1.72 L Cr profit

Profitability

7.7%

net margin, versus 15.7% operating margin

- Margin rises with size: Large 8.8% vs Micro -0.6%
- Top margins: Shipping 27.5%, Power Generation 18.3%, Mining 16.4%
- Interest, depreciation and tax absorb about half of operating profit
- Median ROE 8.7%, median ROCE 10.3%

Liquidity & Solvency

78.1%

of companies are in the Altman Z Safe zone

- Median debt-to-equity 0.24 and current ratio 1.81: conservative financing
- 327 companies (8.5%) are in the Distress zone
- Safe share: 91.5% of large caps vs 70.9% of micro caps
- Debt leaders: Power ₹7.3 L Cr, Refineries ₹6.2, Telecom ₹5.8

Cash Flow & Valuation

162%

cash conversion: operating cash flow vs net profit

- Free cash flow is ₹6.56 L Cr after ₹10.07 L Cr of investing outflow
- 70 companies are profitable but report negative operating cash flow
- Large caps trade at 55.4x P/E and 8.16x P/B vs 30.4x and 1.95x for micro caps
- Overall median P/E is 34.9x

Recommendations

1. Judge earnings quality with cash conversion, not margins alone
2. Screen micro and small caps for Distress-zone companies first
3. Track interest coverage in debt-heavy industries like Power and Telecom
4. Compare industries using medians, not averages
5. Educational analysis only, not investment advice

Data Notes

- Source: Kaggle (pacificrm/financial-sheets), Indian listed companies. Only FY2023 and FY2024 are available.
- Banks and NBFCs are excluded. ROE, ROCE, D/E, P/E, P/B and health scores are latest-year snapshots and do not change with the Year slicer.
- Three DVR share classes with no financial data were removed. Insights are static for FY2024, non-financial companies, and do not change with slicers.
